

# CHOICES WITH TERRAZZO PRESENTATION

Develop a thorough understanding of the design principles when using Terrazzo for your project. Understand basic budgeting, design considerations, finishes, and maintenance for this long-term, durable finish choice.

Join us for a one-hour AIA- and IDCEC-accredited Lunch and Learn presentation with DANCER to explore:

- Installing and refinishing Terrazzo.
- How to budget for Terrazzo finishes and design considerations.
- How work flows through DANCER to ensure clients get the BEST WORK.
- Long-term use and maintenance for Terrazzo.

After a 45-minute presentation and 15-minute Q&A, participants will be able to:

- Understand the building blocks of Terrazzo, including mixes, stone sizes, colors, layout strips, placement, special installations, and custom logos.
- Analyze job site specifics to use Precast Terrazzo for stairs or panels.
- Identify common quality metrics used in the Terrazzo industry to ensure clients get the BEST WORK.
- Understand finishing processes, long-term use, and maintenance systems for Terrazzo systems.
- Understand the benefits of revitalizing older Terrazzo floors and how to bring them back to refreshed condition.

Presented by Nick Dancer, founder and president of DANCER in Fort Wayne, Indiana. DANCER is a basis-of-design installer of terrazzo, polished concrete, and coatings in the Midwest and a global manufacturer and installer of terrazzo precast for signature construction projects.
